CONREST

GENERAL

Art. no.:	SAN-9100
EAN:	4030281269359
Standard:	EN 1497:2007

E-class number:	34-45-03-01
Customs no.:	63079098

Data sheet

CONREST

The CONREST rescue stretcher allows the rapid rescue of accident victims from hard-to-reach and confined spaces. The short design secures the patient's head, spine, pelvis and arms thanks to a particularly thick and stabilising belt strap construction. With its many grips, CONREST offers rescuers and emergency crews numerous options for moving accident victims out of the danger zone. Special attachments can also be secured to the carrying loops. These can be linked to a mobile attachment system that allows accident victims to be rescued from a sewer shaft, for example. A clear colour system ensures rapid handling: all of the attachment points are marked in orange. CONREST has a stable and solid skid plate that ensures the safe movement of the patient over edges or obstacles. A foot cover, which when required can also be used to secure the feet, also comes as part of the standard equipment.

FEATURES

Rated load: 150 kg

Area of application:

Confined Spaces, Fire brigade / Rescue / Special Forces, Wind Energy / Offshore Industry

DIMENSIONS

Size: UNISIZE

Weight: 10

MATERIAL

Material:

Aluminium, Polyester, Synthetic
